

Introduction to group work

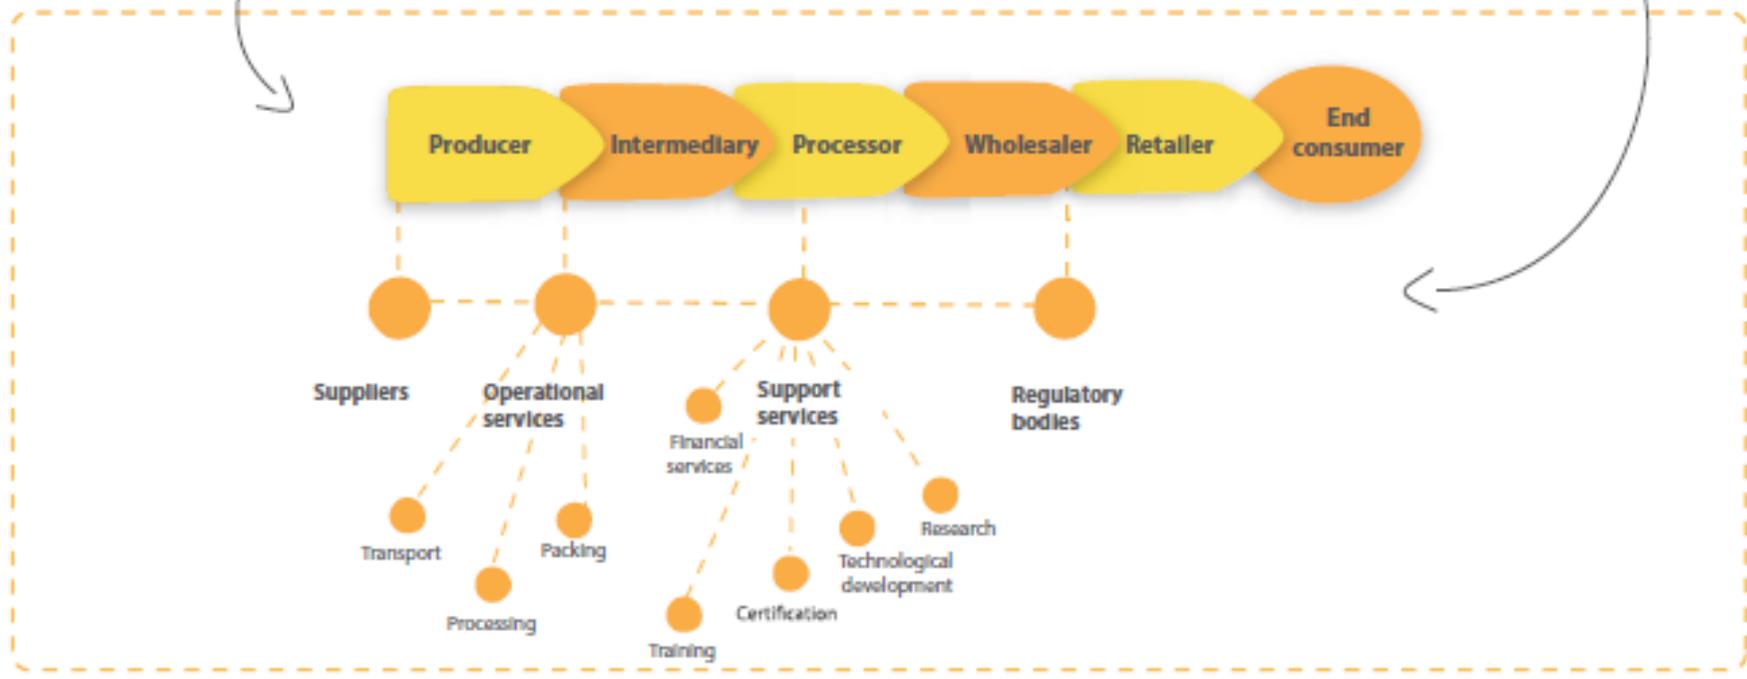

A reminder of objective 2

- **Objective 2** – Increase the adoption of improved cassava production and processing technologies by strengthening linkages between primary value-chain actors (farmers, traders, processors) and with support actors (researchers, government agencies, industry bodies)

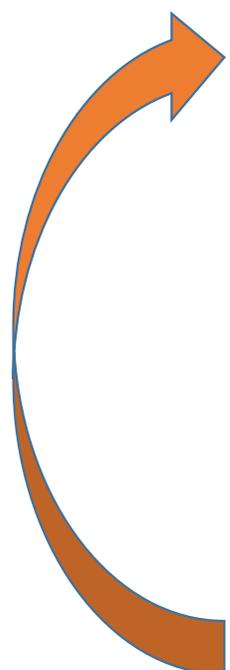

DIRECT ACTORS
Who are they?
What roles do they play?

INDIRECT ACTORS
Who are they?
How do they support (or not support) direct actors?

EXTERNAL INFLUENCES
Within what context does the value chain operate?

Groups and rotation schedule (30mins)

Number	Topic	Resource Persons	
Group 1	Variety evaluations, seed systems	Stef	Sonla
Group 2	Fertility management	Imran, Jono	Daklak
Group 3	Intercropping, crop diversification	Erik	Indonesia
Group 4	Pest and disease management	Nami	Laos
Group 5	Policy engagement	Rob, Dominic	Cambodia

***Myanmar welcome to join group of interest**

Questions to be discussed at each station

1. Broad description of the planned activities and some justification?
 - *Not a list of treatments and experimental methods*
 - *Should be forward looking beyond 2018. There may be several steps.*
2. Who in the value chain is important to have involved in the activity and how? (Core value chain actors, support actors, Gov. NGOs etc)
 - *Why are these people important – what is their incentive?*
3. Where should these activities be conducted?
 - *Again with some long term vision*
4. What other innovations are required to see **scaling** of the technology? (*technical, market or institution innovations*)
